

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE
WASHINGTON, D. C. 20231

APL/JHU Docket No. SPL-53

In re application of
Robert E. Fischell

Serial No. 34,155

Filed: April 27, 1979

Art Unit: 335
Examiner: F. Jaworski

For: Implantable Programmable
Medication Infusion System

AMENDMENT

The Hon. Commissioner of Patents
Washington, D.C. 20231

Dear Sir:

In response to the Office Action dated July 20, 1981 and
having an extended date of response of December 20, 1981 please
amend the application as follows and consider the following
remarks:

Kindly renumber pages 1 through 4 of the Technological
Context of the Invention, page 1 of the Field of the Invention,
pages 1 and 2 of the Summary of the Invention, page 1 of the
Description of the Drawings, and pages 1 through 20 of the
Description of the Invention consecutively as pages 1 through
28.

All corrections hereinafter made will refer to the new page
numbers.

In the Technological Context of the Invention:

Page 2, line 7, after "considered." delete "Furthermore,
Ellinwood describes a device that causes medication to be
dispensed in the body when the bellows pump contracts. The
result achieved in the Ellinwood embodiment is discrete
pulsatile flow, which has three distinct disadvantages;
